WC Docket no. 10-90
Response to FCC orders on Sandwich isles Communications

Dear FCC Commissioners,

Is the FCC anti Hawaiian? There is one Hawaiian owned company receiving Universal Service Funds and using them to provide a necessary service on Hawaiian Home Lands (HHL). This is the same company who has been audited numerous times with no issues arising. Why then is the FCC now making up new rules that ONLY apply to the Hawaiian owned company? I support Sandwich Isles Communications (SIC) because they have done so much good for our community. It is appalling that a federal regulatory body has made up non-existent rules that apply ONLY to one company. The FCC has not followed its process to create these rule and they have disregarded their own statute of limitations. I strongly urge the FCC to correct their missteps, starting with the maintenance of SIC's study area waiver. Please make the ethical and correct decision by keeping SIC's study area waiver intact.

Sincerely,

Devin K. Alfapach
